

SUGGESTION TO WCC FOR ADDITION AREAS OF GREEN SPACE

13 October 2021

Hi Iona

As per your previous request for ideas for green space – here is a serious suggestion.

Te Niho Park (*if you can really call it a park!*) is so depressing and grey and hardly anyone stops there. Yet, with the addition of green space, seating, a few more trees and screening along the roadside it could become an attractive place which could easily be done.

We note there are even more apartments going up around that area in Victoria which desperately needs more green space.

Cheers
Wendy
